

Dr. Victoria A. Stuart, Ph.D.

Vancouver, British Columbia, Canada
E-mail: Victoria.A.Stuart@gmail.com
Web: <http://VictoriaStuart.ca>

PERSONAL STATEMENT

My **mission** is to seek collaborative solutions to scientific and societal issues, addressing my **vision** of applying science and technology to the betterment of human health.

Among my long-term **goals** is the advancement of knowledge in functional genomics: the phenotypic and functional expression of the information contained within genomes. In pursuit of this objective – building on a thorough grounding in biochemistry and molecular genetics – in recent years my scientific and intellectual interests have actively expanded to include informatics and computational methods.

The intersection of these domains (genomics; programming; relational data; ...) enables a better understanding of functional and conceptual interactions, naturally leading to translational knowledge discovery that transcends dogmatic boundaries.

EDUCATION

Ph.D., Biology June 2000

University of Victoria, Victoria, British Columbia, Canada

Specialization: Molecular Genetics: Mechanisms of Mutagenesis & Carcinogenesis

Dissertation: “Influences of Ageing and Diet on Mutational Frequency and Specificity in Big Blue[®] *lacI* Transgenic Rodents“

M.Sc., Occupational Hygiene May 1995

Occupational Hygiene Programme

[now the School of Environmental Health]

University of British Columbia, Vancouver, British Columbia, Canada

Specialization: Molecular Epidemiology

Thesis: “Genotoxicity of Captan Measured in the Comet Assay“

B.Sc. with Honours, Biochemistry October 1983

Dalhousie University, Halifax, Nova Scotia, Canada

Minor: Chemistry

Honours Thesis: “Dimroth Rearrangement of the Oligodeoxyribonucleotide Synthesis Precursor N⁶-Benzoyl-Deoxyadenosine“

CURRENT POSITION

Computational Biologist Jan 2014 - present

Canada’s Michael Smith Genome Sciences Centre, British Columbia Cancer Agency, Suite 100, 570 W. 7th Ave., Vancouver, British Columbia. V5Z 4S6.

RECENT AFFILIATIONS

Owner, Persagen Consulting Jun 2009 - Dec 2013

(ad hoc: Jan 2014 - present)

I’ve been self-employed since June 2009 as a Scientific Consultant, providing scientific expertise in molecular genetics, genomics, molecular biology, other life sciences, bioinformatics and scientific review. From 2009 - 2013 I was subcontracted to Battelle Memorial Institute, Chapel Hill, N.C., providing scientific expertise and review for the U.S. Army Research Office (ARO; Durham, N.C.), and the U.S. Army Center for Environmental Health Research (USACEHR; Washington, D.C.).

Research Scientist May 2001 - Nov 2008

Laboratory of Molecular Genetics

[*now the Genome Integrity and Structural Biology Laboratory*]

National Institute of Environmental Health Sciences

P.O. Box 12233, MD E3-01, Research Triangle Park, North Carolina 27709.

Throughout this period support was provided by the **U.S. Army Research Office** (Research Triangle Park, Durham, North Carolina), through:

- **Research Associateship Award** May 2005 - Nov 2008
National Academy of Sciences, Washington, D.C.
- **Research Assistant** May 2002 - Apr 2005
Department of Molecular Genetics and Microbiology
Duke University Medical Center, Durham, North Carolina
- **International Research Scholar** May 2001 - Apr 2002
Department of Microbiology
North Carolina State University, Raleigh, North Carolina

SCIENTIFIC INTERESTS

While I focus on genomics and genetics, my scientific interests include artificial intelligence, biology, biochemistry, bioinformatics, cancer, cellular signaling, diet, DNA metabolism, graphical models, health, knowledge stores, mathematics, metabolism, microbiology, molecular genetics, machine learning, natural language processing (NLP), networks (interactions; relational data), neuroscience, 'omics (all), physics, programming, statistics/probabilistic models, synthetic biology, ...

My most recent (Jan 2014 - present) work predominantly revolves around:

Genetics/Genomics:	Artificial Intelligence:	Knowledge-Related:
<ul style="list-style-type: none">• functional genomics• molecular genetics• oncogenomics• pathways/networks	<ul style="list-style-type: none">• clustering• dimensionality• machine learning• NLP	<ul style="list-style-type: none">• metadata• graphical models• RDF triples; triplestores• relational data

I also possess an extensive body of knowledge and expertise (e.g. at-bench laboratory skills) in:

Molecular Biology:	Microbiology:	Other Core Skills:
<ul style="list-style-type: none">• all basic: cloning...• transgenic rodent models• mitochondrial genetics• DNA sequencing, analysis	<ul style="list-style-type: none">• yeast genetics• bacterial genetics• strain construction• mutational assays	<ul style="list-style-type: none">• polynucleotide chemistry• chromatography• laser confocal microscopy• micromanipulator

EXPERIENCE & SKILLS

Languages & Software: Familiarity with L^AT_EX, GNU Octave, Python, R

Operating Systems: Linux

Laboratory Skills – expertise in:

- Biochemistry, Molecular Biology: all aspects (~28 years at bench)
- Chemistry: organic (polynucleotide) chemistry
- Microbiology: bacterial & yeast genetics, genomics (strain constructions ...)
- Most major bio/chemical, biology, molecular genetics instrument & equipment

Scientific Review: Expertise in peer review of scientific research proposals, with hundreds (>230) of leading-edge academic genetics, genomics and life sciences proposals reviewed, ranging from US\$50K - US\$16M.

LEADERSHIP & SCIENTIFIC SERVICE

Genetics and Environmental Mutagenesis Society, Durham N.C. 2002 - 2007

- **President** 2006 - 2007
- **President-Elect** 2005 - 2006
- **Councilor** 2002 - 200

Founder, AI-SIG 2014

Artificial Intelligence & Machine Learning Special Interest Group

Peer Review, Academic Journals: Acta Biochimica et Biophysica Sinica; Archives of Biochemistry and Biophysics; Cancer Letters; Environmental and Molecular Mutagenesis; Eukaryotic Cell; Functional and Integrative Genomics; Genetics; Molecular and Cellular Biology; Mutagenesis; Mutation Research; NIEHS internal reviews; Proceedings of the National Academy of Sciences of the United States of America

Project Leader 2000 – 2001

Supervision of graduate students in: Individual Susceptibility Group, Centre for Environmental Health, Department of Biology, University of Victoria

Leadership - Extracurricular:

- **President** 1985 – 1986
Phi Kappa Pi Fraternity, Dalhousie University, Halifax, Nova Scotia, Canada
- **Founder** April 2008
Durham Gender Alliance, Durham, N.C. USA
<http://groups.yahoo.com/group/durhamgenderalliance>
- **Chair** Feb 2009 - Jun 2009
Trans Alliance Society, Vancouver, B.C.

MENTORING & TEACHING

Co-Op Student Supervisor 2014 - present
B.C. Genome Sciences Centre. Various supervisory & administrative tasks

Mentor, “Women in Science“ 2014 - present
University of British Columbia: <http://ubcwomeninscience.wordpress.com>

Mentor, “Women in Science and Engineering:“ 2012 - 2014
University of British Columbia: Annual WiSE event

Teaching:

- Co-Lecturer Spring 2001; Spring 2000
Biology 437/550E, DNA Repair and Mutagenesis, University of Victoria
- Co-Lecturer & Course Coordinator /Administrator Winter 2000
Biology 439/550E, Molecular Epidemiology, University of Victoria
- Supervisor 1997 - 2001
Supervision & training of undergraduate summer students & technicians
Department of Biology, University of Victoria
- Laboratory Instructor 1983
Biochemistry Laboratory, Dalhousie University

HONORS & AWARDS

National Research Council Research Associateship Award National Academies, Washington D.C.	2005 - 2008
National Cancer Institute of Canada (NCIC) Student Travel Award	1999
Environmental Mutagen Society Student Travel Award	1997
Foundation for the Promotion of Cancer Research Fellowship for Research in Japan National Cancer Center Research Institute, Tokyo, Japan	1996
Graduate Student Stipend Cancer Research Society Inc., Montreal, Canada	1995 - 1999
Undergraduate Summer Research Fellowship Natural Sciences and Engineering Research Council, Ottawa, Canada	1981; 1982

INVITED TALKS, LECTURES

Natural Language Laboratory Simon Fraser University, Burnaby, B.C. “Biomedical Text Mining/Artificial Intelligence Applied to Clinical Reporting“	Apr 09, 2014
University of Victoria Sustainability Project University of Victoria, Victoria, B.C. “Genetic Studies of Dietary and Environmental Mutagens and Carcinogens Using <i>lacI</i> Transgenic Rodents“	Mar 29, 2000
Occupational Hygiene Programme University of British Columbia, Vancouver, B.C. “Genetic Studies of Dietary and Environmental Mutagens and Carcinogens Using <i>lacI</i> Transgenic Rodents“	Feb 05, 1999
Carcinogenesis Division, NCCRI National Cancer Center Research Institute, Tokyo, Japan “A study of <i>Tris</i> (2,3-dibromopropyl)-phosphate in Big Blue [®] transgenic mice, and aflatoxin B ₁ in Big Blue [®] mice and rats“	Jan 18, 1996
